URGING PROTECTION OF PEOPLE

Paris, Washington DC, 07.08.2020, 03:44 Time

USPA NEWS - In a joint letter, the World Council of Churches (WCC) and ACT Alliance urged the president of Mozambique, Filipe Nyusi, to protect lives, property and livelihoods from increasing violence in the country. The WCC and ACT Alliance express concern over the number and humanitarian impact of violent attacks by armed groups in the northern and central provinces of Cabo Delgado, Manica, Sofala and Nampula. “For the past three years, these regions have suffered an increasing incidence of armed attacks targeting the civilian population, commercial transportation, and properties,“ reads the letter. “People have been killed, homes and livelihoods destroyed, and thousands of people displaced without the basic resources for survival, making them even more vulnerable particularly in the context of the COVID-19 pandemic.“

The letter urges the government to intervene to ensure protection against rights violations and ensure security for the affected communities. “We pray that God will grant you wisdom, guidance, and strength to confront these challenges,“ concludes the letter.
